Result of the Trial Trip of the

New Cruiser Charleston. THE RUN TO SANTA BARBARA.

The Engines Worked to Perfection, and a Continued Spend of More Than Fearteen Knots Was Easily Developed.

Kasta Was Easily Daveloped.

Santa Barbiera May 8—The United States cruisar charlesion arrived here on her trial trip should be a second of the trips hitle some than fourteen knowledge of the cruiser self Mission rock, in the Francisco hay, at 6.43 o'clock Theady, maring, under a cloudless sky The scene presented on the deck of the cruiser self Mission rock, in the Francisco hay, at 6.43 o'clock Theady, marring, under a cloudless sky The scene presented on the deck of the cruiser was in sharp contrast to the capearance of the American man-of wer incommission in the circular bullwarks, fore and aft, whose eight inch rided guns are to find their positions, and in the sponsings for the accommodation of the six inch guns were piled pig iron bara in sufficient number to represent the weight of the ping into the contrast of the six inch guns were piled pig iron bara in sufficient number to represent the weight of the ping into the contrast of the six inch guns were piled pig iron bara in sufficient number to represent the weight of the ping into the six inch guns were on the bara portion of the wood and metal good willies a great portion of the wood and metal good for those on board in the shape of straw matterses, pillows and blankets, while lanterns were suspended in the ward rooms and passage wars for lighting purposes, in item of the clearing light plant, which has no beard in the same pound eage was for lighting purposes, in item of the clearing light plant, which has no beard of excloping 7000 horse power by her is o compoured to the contrast of the claimed, than nor to which ships of developing 7000 horse power by her is o compoured to the claimed, than nor to which ships of the claimed the contrast hours, a mean of the claimed the claimed than nor to which ships are self-ships of the claimed than nor to which ships of the claimed the construction board of Chief interes of the United States and Chief Engineer Robert Foryulle, and Expert Engineer Robert Foryulle, and Expert Engineer Robert Toryulle, and Expert

Pickell, C. W. Dieson, T. W. Marana, and H. L. Issues, T. W. Marana, The astrol contingent was also supplemented by (apiain J.-C. Watson, Commander F. P. Gilmore and Liceitenant C. G. Calkina, tho were present in a somi-official capacity, with Surgeon Maranther, C. S. N.

IN 4 ROUGH BEA

After her compasses had been estisfactority adjusted, the Charleston at 8 o'clock headed down the bay the Union Jack flying at the fore while the American ensign was boisted att. A strong southwest wind had been blowing, and the rolling wase on the bay, capped with white, gave full notice that the cruiser was to receive a rough baptism. The engines had been gauged to forty revolutions, which acreed to preas the ship steadily forward into the see, which was coming almost directly head on, the waves rising higher and higher, and coming with increasing violence. Besiden breaking forward, waster began to come over the starboard side of The cruises held starding a life.

steemed, which completely flooded the main arrange the head of the ship toward the south, she finally rode out to sen and the maral officers were free to say that the charlester had behaved handsomely, and thus the fest had behaved handsomely, and thus the fest had severe out in the matter of her staunchaps. Completely one in the matter of her staunchaps. The severe has a few or Fernald remarked that in ten years are she would probably not encounter a rougher sea, or be subjected to a severer test as to her structual seagoing qualities

From 10 o clock until 1 o'clock in the afternoom the engines were allowed to exhibit a little more power and the cruiser's progress indicated as even speed of eleven knots.

When of Saitla Cruz the engines were slowed down on account of a slight tendency to beating shown by the crossbead of one of the high passive cylinders and were finally stopped to put a slim nuder the crossbead of one lever the tender. The engines were again started at 6 o'clock in the afternoon and were minated at 6 o'clock in the siternoon and were minated without showing further heating.

The engineer's report shows that in the run from San Francisco to Santa Barbara not a formation or pin showed heat The engine in the siternoon and were the standard in the siternoon and were the standard in the siternoon and were in steady to show that in the run from San Francisco to Santa Barbara not a journal or pin showed heat The engines had run smoothly and without any amounts and without are assets.

or pin showed heat. The engines had run amouth; and without jar, and, with the sec estimated in the contraction of the contraction and experience. The attraction noted, to the entire satisfaction of the contractions and government engineer. The attraction is a treaty-seven inches through the four hours run from of Folint Respiratory to the four hours run from of Folint Respirator to Folint Conception ending at 2 of cinek this afternoon, the speed of the cruisor averaged. It is also knot see hour representation of the contraction of the folint Conception to Santa Rarbara, the enguisar were maintained at a steadily information, speed and the cruiser exhibits a maximum speed of 14 12 fol knots during the last stage of the run to this puri.

to this part

A decision will probable be reached to-morrow
morning as to where the four hour run will be
made to test the engine power. It will take place

Growing Belief That the Man Was Mur-dered by Some Friend of Sullivan. CHICAGO, New S.-A dispatch from New York ass that the rish Nationalists there appear to be ouvinced that Dr Cronin was assussinated in says that the Thin Nationalists thure appear to be convinced it at Dr Cronin was sassinated in Chicago

In a gomeral way, without giving the source of the information, it was stated that at a meeting of the Irish organization in Chicago to vindicate Alexander Sullivan against charges by Cronin, a resolution was offered practically sentencing Cronin and others to death but that it was defent of That fact became known, and a freend of Cronin advised recourse to the courts but that was found to be useless, and none who know the facts dared to testify.

The story gues on to say that Cronin's attacks on Sullivan i 1 the Edio-American charging him with getting le Caron into the membership of the Clan Na Gael widened the breach, and may have prompted some foolbardy friend of Sullivans to commit the murder.

John Devoy, Michael Bresslin and others sent a dispatch to fr ends of Cronin in Chicago yester day, offering o raise money to hunt down the as assains.

ansilus

Dr Wm Wallace, a particular friend of Cronin
believes hith's have been murdered by individu

HOW TO TRAIN GIRLS.

"The Industrial and Saving Forces for Women" Discussed. A Very Able as Well as Instructive Parles Lec

thre Delivered by Mrs Dr Plorence King

at the W C. T. U Hall

Mrs Dr Florence king delivered a very practical lecture at W. (T. U. hall last Tuesday on The Industrial and saving Forces for Women The speaker began by saying she would not have chosen the subject for herself but since it had been chosen for her she would express a few of her thoughts upon it. In her opinion the end to be sought in the training of both rexes should be to prepare them for overcoming the obstacles to be met with in the battle of his That few of ite principles an taught at school copic pure it by must be learned during vacations or when school days are past

be met with in the battle of life. That few of it e principles an taught at school copie, near it is principles an taught at school copie, near it is principles an taught at school copie, near it is just be before med infing scattagots or when school days are past. The difference in training between the saves was next considered hips being more there ought, instructed expectably in being more than ought, instructed expectably in being more than ought, instructed expectably in the second that he is to have a colof in time pittice of his is mutiful to his in the same of it edgy thus begin lening his mind and exceloping his judgatent. He learns in use debuting one is how to text is himself without embarrasament be fore an audi not. Finally led i may some tade or profession who clay can on a a compe ence in a word he is rough to be a fact at a same tade or profession who clay can be not a compe ence in a word he is rough to be a fact at a same tade or profession who clay come in the How different it is with the girl she its day ten into the fed that he is a r an an apst met. How different is which the girl she is do a tagget any of these things but sample to sungle to sungle the day, can discost the latest tool, as shifted to constitute of an appear well in societ. The object was the latest tool, as shifted in the first as some in the man of a stage and continue the same annhals led in societ. The object of the latest of the same annhals led in one in to foral in bead who can it much the same annhals led in a societ to marring. But that no can it much the continue the same annhals led in a societ to marring and the work herself of the can be not for all in sectic economy in the way on to take ping in the same of the woman and to know how to control servants. She should understand her to do the woman servationed to have the result of the woman are usfound to feel the elimination of incombine when we had been accounted to make her own living and the indirect of having soft her can't training.

The speaker, warming wi

marry, worthless and diestimeted and supplied and linebility to make a living for the mix tree and and linebility to make a living for the mix tree and that they must marry somebody in order to live at all. Their clucation has taught them that they must diestimate the first clucation has taught them that they must dapped upon some one to five them everything they have. If they had been taught to be self supporting they could aftered to wait until the proper kind of man presented himself thus the worthless ones would find that in order to win them and the become worthly. More than this could after the sught that it is dishonorable to receive without a until the market become worthly. More than this dishonorable to receive without a light that it is dishonorable to receive without a light that it is dishonorable to receive without and the line and the substitution of the country of the substitution of the country of the coun

TO EAST PORTLAND

This magnife it property comprises 1400 lots and ness immediately between the city of East Portland (population 12,000) on the south and the city of Alba a (population 4000) on the north, being really a "reserve" between two populous centers with a combined population of SiNiLN THOUSAND. It is high, comminding a view of the entire cities of Portland, East Portland and Albina and is reached by the steet cars of the Williamette Bridge Ruiway Co from either Portland of East Portland. This company is not operating two inner of street cars one running north from Holladay's addition, through the learn of East Portland. In addition to these two lines the state of the Vincouver motor line run directly through Holladay's addition from north to south. The property can also be easily reached from the "west side" by either the Southern Pacific Rail road Company's steem ferry or by the small ferries running from Portland to Albina. Some of the East residences on the "east side" are located in this addition. Many of the most pointment residents of Portland and East Portland are now purchasing property in Holladay's addition and many elegant and substantial residences will be constructed there during the coming year. A magnificent Boi levard, Holl idly vanue, 100 feet wide, cuts through the entire property from west to east, and is now one of the most popular care out of the city. This counce's with the new steel railroad and wagon bridge (spanning the Williamstee) on the west, thus going easy access into Portland from this most desirable property. Address or call on

OUR UNEQUAL TAX SYSTEM.

The fault of our astessment system is not or much in the law as in the administration of the law. There are indeed, grave defects in the law, chief of which is the provisionthat allows deductions for indebtedness; but the consequences even of this defect would be minimized if property was assessed at something like its actual value, so that debtastated at their full a nount might no longer be deducted from an assessment based or

he actual valuation.

But the blame for the notorious undervariation of all property—except money and credits—does not lis at the door of our massessors. These officials would willingly ss all property of its fair each valuation were permitted to do so. But local will not permit them to make a proper assessment. If an assessor should efferent tide he would be subjected to a be assessment he had made. It is not not

This state of facts is not creditable either to public honesty or public intelligence. One.
Purpose is to escape the state tax; mother fact theory, upon money and credits a reen of taxation than is borne by property in other forms. Since these on uty tries to reduce its assessment so as to shirk its just proportion of the state the long run gain any advantage. The retrying to throw upon money and credits heavier burdens than are borne by property in other forms is to force money into hiding places and to strongle credits; so the effort mainly defeats itself.

I Ligration question of exempting money and aredits from taxation. No exemption is larged for them: What is asked is a just exempted for them: What is asked in just exempted to property of every kind, so that mopey and execute shall no longer behalf them three to the times higher than property in other forms. Here is a reform Builts absolutely exempted to the well-being the progress of the state. Capital avoid Oregon, because it is not justly death with. Even Oregon's own capital is sent out of the state in immense surve for investment, beof loans or credits without being subjected to a rate of taxation which, because of the shameful undervaluation of other forms of property, becomes absolutely ruinous. For me reasons men who have money to inrest shun Oregon and seek Washington ne California, where a juster systems of taxa-tion prevails. Here incoragon are disoriminate against money and credits with a usury other property on the other side; and here-in is the one great reason, why Washington territory is making more rapid progress in prospecity, wealth and population, than Oregon.
We need not look wholly to legislation for

rdy, though legislation that would for-cluction of indebtedness would be of great service. Our ausessors could apply emedy under present laws, if the peop putting upon property its actual valuation as the law even now requires. The property of Oregon is assessed at tess-than unety millions of slotlars. A low valuation would be three aundred millions. This valuwould be easily reached on the assess ment rolls, if all descriptions of property is all the counties were put at what it is reasonably and moderately worth. No one indeed supposes that it all the property of the state. wellisted at owners' valuation, or even a valuations that owners would refuse, the aggregate would be tontained within five hundred millions. But real estate and porsound property in many forms are assessed ind-credits, a burder is thrown which he corner positively espressive. It stides in-dustry and strangles enterprise; it causes money to be hidden away or keeps it out of the state, and it goes far towards suppression of those legitimate operations of credit hich are so essential to business and to inial activity. There is no free play for and industry and business are frozen up in their very springs and sources, natif ac-carding to the post's vision, Death, with his mace petrific, cold and dry," had

Meanwhile Washington territory on the dustrial activity and presperity that Oregon repels. A people wanting in intelligence, nad whose morality and energy are so supposed by that form of narrow and proto "beat" ouch other, will never keep up mion of modern enterprise.

A SATISFACTORY RECORD:

Reports submitted by the officers of the and Girls' Ak Society at its annual mish conclusive evidence of the good that this organization has accomplished within the year, in the line indicated by its name. Humanity, charity and discipline go hand in the work of this organization. and the three, carefully combined and up-plied have entered the domain of juvenile waywardness, and checked, in many in-stances, reckless tendencies that were fast being turned into the broad channel of de-

pravity and crime.

The most difficult work of the society is not with the shildren that it seeks to rescue from lives of present vagabondism and fu-ture criminality. The parents of thesesparently oblivious to their responsibility the premises, until their boys were placed nder arrest, have in many instances reunder arrest, have in many instances re-sented with all the energy of vituperation the interference of the officers of the aid neisty in their behalf, wholly unreconciled to the idea that they themselves are not proper custodians for their children. To deal with such parents middy is impossible; deal with such parents mildly is impossible; to deal with them sternly is disagreeable, to say the least, but in order to secure to them the benefits of the only aid that it is possible to extend to disconsiderate young criminals absolute control of them is necessary, and this the law has wisely given to the officers

of the society.

The results in many instances have abundantly proven the wisdom of a course that takes the youthful offender away from his grounded, away from the large strong that he has learned to dest with impunity, and phase him in a wholesome moral atmosphere him in a wholesome moral atmosphere. Those who have been through the most discouraging features of this work; who have been manufed by misguided by active than any phase. Those who have been through the most discouraging features of this work; who have been manufed by misguided by string tion in the United States, varying in value from the United States, and territories have established beyond question that the total states and territories have established beyond question that the claimed by irrigation in California, Utah, where the theory water to mineral the part to contain the par most discouraging features of this work; who have been seasiled by misguided parents and insolently deficed by criminals, young in yours but old in the ways and devices of crime, still, bear cheerful witness to the conviction that a kindness, firmness and persistent endeavor will research the worst boys from a life of commenty are ready to endorse this butest, while even the comic, who believes that the only thing to be done with a boy of vi-cious tendency is to a bip him before the mast

help it forward in the easiest way possible by n any line and in any community is carned Rive time and energy to the work of the Boys' and firsh' Aid Society feel that back of Hoys' and times' And Society feet that mack of the individual effort that is required of them is the moral sentiment of a community en-dorsing their work and ready to furnish, when called upon, the necessary financial hower to carry it forward.

RECLAIMING DESERT LANDS

Our dispatches yesterday reported a discussion of the subject of the reclamation of the so-called desert lands of the West, by the executive committee of the California State Board of Trade. The views briefly expressed ng article contributed by him to the Forest April of this year. Our arid lands, where the rainfall is insufficient for agricu comprise about two fithe of the entire area of the United States, exclusive of Alaska; they aggregate shout 1,200,003 square miles and are capable of repporting a population of 200,000,000, since their area is one-third larger than British India, which supports over 200,009,000 inhabitants, largely by irri-gation. The arid regions of Asia. Africa and Europe in aucient, times were filled with millions of people who subsisted by agriof great hydraulic works constructed for ir-rigation by the ancients are found in Egypt and other parts of Africa, in Southern Europe; in Palestine, Persia, India, Ceylon and other Asiatic countries; in Arizona epopulated those regions and returned them to the desert from which they had been re claimed by the skillful and patient labor canimed by the skilling and patient labor of centuries. About seventy, miles from Cairo there is a basin 256 miles in area, from which a channel, leads into the Nile valley. This channel, is closed by a dyke of musoury, with regulating gates. This great work was constructed 1900, B. C., to store the flood waters of the Nile for the purpose of the state. Nile for the purpose of irrigation. In Pales time the traveler everywhere sees traces of anchor disterns and reservoirs; and in the single East Indian province of Madras the. English found 52,000 reservoirs, 30,000 miles of embankment and 300,000

ninsonry works, consisting of sluices and waste weirs. The great tank in Trichinepoly. as an embankment 30 miles in tenoth has an embankment 30 miles in length and a storage area of 70 square miles. Similar great reservoir tanks existed in Leylon as early as 504, B. C. An English writer estimates that when these hydramic works were in perfect condition the population of Ceylon was from 15,000,006 for 20,000,000,000 whereas now the population is but 2,400,000 and a large portion of their food has to be appointed from Intellations this return. supplied from India. In Arizbus the rules of ancient cities, capals, reservoirs, and dams show that it once sustained a large These facts are cited to show that modern

civilization has only to put forth, its engineering skill with the same energy exhibited by the ancients, to make the arid lands of the United States biossom as the rose. The reclamation of this wast body of arid lands requires the enactment of appropriate legis-lation both by congress and the several states and territories, whice irrigation is necessary. Senator Stewart says on the Presedents regulating the right to the use of

water in regions where land is the principal thing of value, and flowing water a mere-includent, are impulicable where water is the principal thing of value and land the incident, as is the case in all arid regions. The same whe policy which required the distribution of it e land in limited quantities among the people for homes in those sections of the United States, which can be entitivated without irrigation, also, requires the distribution of the water in the arid regions in quantities limited for the amount horsestory for the integation of farms of 160 across of Jess. Experime the California, Nevada, Colorado, Utah, Arizona, and other irrigating countries, show that eighty acress of land properly cultivated, far exceed in productive emacity 160 acres our served in serviced. There is much more land in the arid region ceptible of irrigation than there is water ceptible of frigation than there is water with which to irrigate it, therefore the limitation in quantity should be applied to the water rather -,bart ed)-of and Surveys by men of engineering skill and

experience will be necessary to locate the eservoir sites in every mountain range where the flood waters of winter and spring

governments, can hardly be exaggerated. The arid region abounds in summer in grasses and affords excellent pasturage for stock, but it is too far distant from water to be available for grazing. Irrigating canals would make these lands, available by furnish-ing water for stock, or by ratsing food for for the winter use of the cartle that had sum mered on the open ranges. Since the water mered on the open ranges. Since the water in the arid region is the principal thing of value and the land the accident, the principal tax would be levisdon the water, according to its real value for use. The British government in India, Ceylon: Egypt, Australia and South-Africa compels the distribution of water for agricultural purposes among the people. In India the government has assumed the ownership of all standing and running water, and exercises the right of eminent domain to coordenm whatever was necessary in the construction of camis was necessary in the construction of equals and other hydraulic works. A large corns of experienced engineers have been employed in India for the last twenty-five years in building dams and reservoirs and in con-

omining dams and reservoirs and in con-structing canals many thousands of miles in aggregate length, irrigating millions of acres of land. When this project was un-dertaken by the government, its estimate cost- was #115,000,000; which estimate has been wastly increased since that time and the letgre portion of the money expended. These rigorous, not to say arbitrary meas-tures, have straitly increased the recoverures, have greatly increased the revenues and advanced the prosperity of India, and when this system of irrigating works embraces all India her periodical Immines and pestitences will become infrequent, and she will become a more formidable competitor of the United States in supplying Europe with what and eating thanks is a recent with wheat and oction than she is at present.
Mr. Stewart sees no proctical difficulty in
the reclamation of these lands, without accumulated capital, by the same power of associated labor that in the mining districts of California in early days built flumes miles in extent to divert large streams and penult the mining of gravel deposits in their beds. This same associated labor, without accumnished associated labor that in the mining districts of California in early days built flumes miles in fairness by the cause of civil service reform as acted with enure fairness by the cause of civil service reform as forward accumnished associated labor that in the mining districts of California in early days built flumes miles in extent to divert large streams and penult fairness by the cause of civil service reform in appointing Theodore Rooseveit, of New York, and ex-Governor Thompson, of South Carolina, commissioners. Both of these men states and territories can be found every where ditches and canals many miles

\$10 to \$1000 per acre, and yielding a net in-come equal to the interest on a much larger sum than this valuation.

But the great work of reclaiming these arid lands cannot proceed swiftly if left sim-

ply to state legislation. It needs congressional legislation and liberal government appropriations to push it to early completion. Congress last year appropriated. \$100,000 or

congress appropriated an additional sum of was appointed for the purpose of examining the arid region and reporting in December next what legislation is necessary for its re-

A TYPICAL "POOR FELLOW"

A chivabic young man of Georgia appeared recently in a commonplace role. He cloped with a young girl and married her. The romance of the attuation soon were off, bread and hutter. and butter became a necessary adjunct to their happiness, and things grew gloomy and depressing. In this severe stress he left her. She, poor fooijali creature, seemed to her. one, poor resigns creature, scenics to have learned nothing from experience, and permitted the attentions of another man. This was more than the purty of the first part could bear, and stoutly declaring that "if he could not have Fannie no one else could," he procured a pistol and shot her.
The great pity of this sort of thing is that
it does not inspire the industry of hemp.cul-

ture to the extent that justice and public safety demands. The cruelly lovelorn nur-derer usually forestalls the prompt admin-istration of justice in his case by clurasily wounding himself in a feint at suicide, after "Faunte" is safely beyond the reach of na-other-whereat the cry of "poor fellow" is raised, sentimental soruples against capital pundament are aired, the defense of insanity is set up, and he is let off with a lew years, more or less, generally the latter, in the

penitentiary,
There are representatives of this class in almost every community. Men whom wives can neither live with nor get away from though foolish women are constantly trying both roles. The public would have little cause for comp and if men of this kind. were not such outrageously poor marksmen when they turn the smoking muzzle toward themselves. As to "Fannie," noor thing, it is only a question of a few miserable, starving years at best for her, and, humane instincts feach that a speedy death is far mornierital than a lingering one. The only hith it the business is the failure to wind it up with good stouck rope. up with good stout rope, properly stretched and scientifically adjusted.

There is a feeling, more or less wall defined, but a strong feeling, nevertheless, that this is a land of freedom, and that liberty is one of the prominent prerogatives of its sons. occasionally, however, a cities is dealt with in a manner-that-shows up this vannted boast in its true light, and causes an inquiry as to what the country is coming to. Covalits furnishes the latest example. A man, Matthews by name, who had been rusting around all the week getting something to drink, while his wife had enjoyed her plebeinn instincts by going out to wash, was dis-couraged on coming home Saturday afternoon to find that manufactous woman busy noon to find that unambitious woman busy over the washtub that contained the socied lines of the family. The sight of seeing the sworn partner of his juys engaged in so menial a vocation so enraged the chivatric husband that he threw tub, suds and clothes uncerementously into the street, and to complete the labor reform in his own home he pitched the woman after them. At this work, a partner of the control of the control of the control of the woman after them. point an intermeddling officer of the last came, arrested the man, took him before the recorder and had him tried and fined \$25 for assault and battery. The improvident wife had not hourded enough from the proceeds of her washing to save him the indignity, and he was sent to jail, where he still languishes, thirsting for gin and revesse. But the spirit of our institutions is still strong within him; and according to the Benton Leader he was at last accounts making inquiry about the bondsmen of officers who have put upon him the indignity of lodging him in juli, with the supposed purpose of collectings large amount of damage

Arrangements are being made by the G. A. R. posts in various sections of the state for the proper observance of Memorial Day, which occurs three weeks from to-day. The programme, like that of Fourth of July cele-brations, admits of but slight variation, but the sentiment that dictates the observance is one that gains strength with time and is not likely to pass away with this generation. The ceremony has far outgrown its original interest, and while the soldier dead are re-memberal upon that day, with sulogy and where the flood wriers of winter and spring and prayer, and their graves are can be stored for use on the lower tevels in the keason for irrigation. The enormous benefits of a vast system of reservoirs, ditches and canals, pushed to completion by their tributes of reniembrance multiplies the strong of the sand canals, pushed to completion by the resources of both the Federal and state of the sand canals, pushed to completion by the resources of both the Federal and state voices of memory. The observance of Deco-ration Day is one that the people can well afford, since it touches a responsive chord in

the great heart of humanity. One wouldn't suppose it needed a committes of congress to explore the executive de-partments to discover the effects of "red tape." Such a committee was appointed, and having completed its labors, it shows how public business is retarded instead of dispatched. They follow antiquated forms and obsolete precedents, when all- the world is shaking off its worn out ways. In some bureaus it-requires four years to get through an ordinary aftair that should be adjusted in a week. In some of the offices they have tried to-reform the media operand; and business-gets through-quicker. It is absurd that time should be wasted and people interested by delayed and incommoded. The next thing should be a commission of thoroughly comprehent husiness near who should be a bound by a bound by a commission of thoroughly comprehent husiness near who should be a first than the commission of the commission competent business men who should lay off a method for doing government work ex-actly as work is done in the best business

Another great grandson of Queen Victoria and of the late Emperor William was christened in Germany a ew days ago with the usual parade attendant upon taking royalty to the font. He is the elispring of cousins, his father, Prince Heavy of Prussia, being a son of Oneen Victoria's oldest danabler and son of Queen Victoris's oldest daughter, and his mother, Princess frene of Hense, being a daughter of Princess Alice, second daughter of the queen. He was loaded down with the regulation family names; six in number, and starts out on the road to collepsy and moral treesponsibility royally equipped. Although the supply of kingly material of this stamp has for years been largely in advance of the demand, there are still number-less grandchildren. her Helich registy less grandchildren of her British majesty

believe in civil service reform as fervently as Geo. Wm. Curtis, Carl Schurz or Horaca the president with appointing commissioners who are not in full sympathy with their cause. It is not the president's fault if civil-service reform does not get more ingenuous and upright treatment than it received at the hands of Cleveland

The legislature of New Rampshire meets next month. Systematic inquiry among politicians has disclosed the fact that ex-senator Chandler is the choice of the prominent men of the state for the United States sonate, and the legi-lature is, said to reflect the sentiments of the party leaders in this

Governor Moone of Washington territory propriations to push it to early completion.

Congress last year appropriated. \$100,000 or Ledger, that he is not a candidate for the Owner flower fl

would be short. He would probably have added that even the most argent solicitation of a friend-could not induce thin to change bis mind on the senatorial proposition, but just at this momentous juncture a servantanced that his excellency's bath was ready and he smilingly retired.

The vote in Tecoma on mayor was: Wheelwright, Dern., 1150; Wingate, Rep., 1088. Wheelwright's majority, 62. Total vote, 2218. The Leiger calls it 'than increasionght election ever tield in Tacoma." The republicans elected most of the other officers.

Recreatery Wisdom's Health Improved in Wattingrow, May 7.—Secretary Windom is im-proved in health. He assumed his duties at the department to-day and attended the cabinet meet-ing this afterneon.

CERARING ILB RACT—A force of sone forty

Street, Bleomington, III.

C.E.ARTC THE TRACT —A force of sone forty men are at work electing the tract southeast of Rast Fortland lately purchased by Messre, Havely, Smith and others, and manks widges the force will be inaccessed to 100 men. All the atmaps fallen trades and the commental, are being remoted, the object being to give the plane, the appearance of a nark. Arrangements for building the moder line to the fact are not yet completed, and a meeting will be held Schurds, evolung to endeavor to conclude his matter.

time for the most money.

Sold a Hars Broad - The Fourth Presenterian church and Rev. Thomss Boyd, the paster thereof, have purchased from Mrs. Matthew P. Deady in half blook on 47ths cause, between South Front and Friend, for \$8270. A church will be built on the quarter blook but First stated, and Rev Boyd will build a rusidence on the other quarter. Mrs. Duady has owned the property soluc eight or nine years, and after deducting interest, taxes, street improvements and commissions, makes a clear profit of nearly \$400.

They \$8.2718 Jengans w. The general commissions.

improvements and commissions, linkes a clear profit of nearly \$400.

THEY SAT IN JUDGEL WY.—The county commissioners were restoring again in session to pass sentence on a bivide for more of bills that have accumulated from time to time, and, from many different sources. A large brack of these papers weeplied up in front of them, and one by one they were cubber 0. Kt, amendady or configured to a be ket and mentally labeled "Thrown-out". The work of the county commissioners, in the matter of examining balls, must be sociething akin to that of pension commissioners.

POPULAR LETTURE IN FAST PORTANO—The next lecture in the popular lecture rourse held hims season in the Adams street M. E charch, in Stephens addition, for the people of Last Pertland, will be delicit cord by live 19th Kummer, of Taylor-street M. E church, Friedry-wening, May 10. Subject. "The labor Problem." This institute will give the people of Reat Puritand an opportunity to thear this alt-aborthous logal landbed in a fast-class manner.

WHAT 13 THE MATTER WITH THIS*—Leve than satif days ago in gentleman bought a block of hand consisting of cight bot at this to. He accusion.

What Is the Matter Will Trips'—Less than sixty days ago a gentleman bought a block of land consisting of eight lots at Linux in. Ho yesterday was offered 360 per cent. advance and wisely declined the other. Opportunities fully as good as above are still open, and it bigs only a small amount of money and wisdom to be equally lone-fitted. A. E. Borthwick, at 2 Washington street, corner of Floux, will give further fagis and ligures to inquirors.

A Pattern Fraud.—beveral ladies complain of a man who is going around cutting dress patterns from which het diffus that hiddes can make perfect fitting dresses, and thus avoid the expects of complaying a milliner. They say that in most linux ness the dresses est from thuso-patherns do not fit and the cloth is apoliced and the justicina have to be thrown any. The follow charges 2 for the patterns, so that those patronizing him are out and inpured.

bring from twenty five to therely thousand dollars Creating. Grading and bridging the line of the Meteropolitan railway from the city limits to kathen park users opened yesterday at the fine of the company. REV. A. J. BROWN'S ADDRESS Delivered Before the Annual Meeting of

the Boys' and G'rls' Aid Society.

He Speaks of the Development of Philanthropy-Barbarism of Past Ages-Gauses of Juvenile Delinquency-Etc.

At the annual meeting of the Boys and Girls' Aid Society Tuesday night, the Rev. Arthur J. Brown delivered the following interesting address: Philan thropy takes its rise in the teachings of the man of Nazarth. Before his coming, it can hardly be said to have existed. True, there were kind-bessed men and women, but their sympathies were as a rule, confined to those of their casts were as a rule, confined to those of their specially several by the gods, and regarded all others with the subset of the casts were as a rule, confined to those of their casts were as a rule, confined to these of the casts with the subsection of the subset of the casts with the subset of the casts with the subset of the large of the circumstants obligations and the could be subset of the large of the circumstants. Here and there some individual might use above the waits of national prejudical might use affects the waits of national prejudical might use above the waits of national prejudical might use above the waits of national prejudical might use above the waits of national prejudical might be subset of the control of the

espective of race or position, was not to be und.

But a new ers dawned with the advent of purish. He lived a life of pure, disinterested bevolence. He disregarded all world and racial mixtions. If he found one who needed help, it titered not whicher that one was a ruler of the way, a syro-the aledan, a Roman centurion, a bload, are awonan that was a sincer. To the pullry of a certain lawyer. Who is my neight? He replied in the matchiese parable that a hardward of the replied in the matchiese parable that a head of the property of the p

be common ites of hectings and of blood. It is one of the most pleaning of tasks

TO TRICK THE HISTORIC

Development of this philasthropic spirit.
E-ginning in that fountain of old, the stream has photoved everous. Sometimes It has been lost to advert the first point of the third particular than the stream has been the stream has been the stream has been the stream of the stream has been no betricted, and that the stream has been to be true the stream has been down the through all and ever with the been continued to dow, this now, all the the Amazan has continued to dow, this now, all the the Amazan has continued to dow, this now, the stream has been continued to dow, this now, all the the Amazan has continued to the the stream has been down to the hand the survey of Washington's innagaration has drawn forth many comparisons of the that with the present. For the most part those comparisons have been confined to the evidences of material progress. Men have spoken of the increased in wealth and population, of the development of arts and manufactures, of the multiplication of conven civer, and the increased facilities for inter-communication. These are indeed great blessings. It is no slight thing that a trans-consideration in the survey, which once required five months, can now be invariously useded in five days; that you can converse with your relative in Landon in five m unter; and read at your relative in Landon in five m unter; and read at your relative in Landon in five m unter; and read at your break-fast table the doings of

THE WHOLE CIVILIZED WORLD

leat new meaning to the phrase "the brotherhood of man."

But more impressive than all this to me is the progress which has been made in humanitarian effort. A limited years ago punishments were barkarous in the extreme. Men could be imprisoned for debt; there ears could be cropped and their cheeks branded for counterfelting; they could be publicly whipped for theft, or sold for a limited period. In Blackstone's day they could be executed for any one of a hundred and sixty of fenoes. "The bystry, intolerance and cruelty, imbedded in law at the close of the last century would be abhorized to the conscience of to-lay, declares Johnson. Our prisons are wretched, but fended, the prison was "an old worked-out cupper name," gamen was "an old worked-out cupper name," cannot have any the window of the last century of the misor which was "an old worked-out cupper name," cannot have any the window. "The misory of the unfortunate creatures cooped up in the cells," arites McMasters, "even of the most humanely kept prisons.

The misery of the undertundle creatures cooped up in the cellar, "article McMastery, "even of the most humanely kept prisons steps," even of the most humanely kept prisons.

Anything ever recorded in hedon, No attendince was provided for the sick, no clothes were distributed to the naked. Such a thing as a bed was rarely seen, and this soon become as foul with insects that the owner dispensed with it gladly. Blany if the inmates of the prisons passed years without so much as washing themselves. Their has grew long, their bodies were covered with ears and lees and cantited a horribe stead. Their adulting rotted from their backs and exposed their bodies formed with sill manner of skin diseases and a sellow fiesh cracking open with filth. The death rate often stood as high as skiy in the thousand. The winder and dayast which the bare mention of winder and dayast. Which the bare mention of winder and dayast. Which the bare mention of winder and dayast. Which the bare mention of minder and dayast. Which the bare mention of a figure of the same and were made.

Lightly great is been in been made. The findily great is been abolissed "The standard of the same and when the participants are hable to arcest. Slavery has been abolissed "The standard of the bar is a same part of the same and the participants are hable to arcest. Slavery has been abolissed "The standard of the bar is a same and the participants are hable to arcest. Slavery has been abolissed "The standard of the bar is a same and the participants are hable to arcest. Slavery has been abolissed "The standard of a bar, as a substandard of the participants are hable to arcest. Slavery has been abolissed "The standard of a bar, as a substandard of a bar is a substandard of a bar is

"Heir of the same inheritance, Child of the self-same tool,
He hash but stumbled in the path
We have un weakness tood,
als the true spirit of philamitrony, and this
spirit of Chi-ti. It is matter for congratulahat there are so many indications of the
eal outworking of this Christ-spirit in our
lity.

One (1):

To a fin degenerate desire

Then if common in Western these, where the strigger for wealth is usually flercer and more rockless than in the older Last, our citizens have listened to the voice of humanity. The possible she listened to the voice of humanity. The possible she listened to the voice of humanity. The possible she listened to the voice of humanity. Relief, the Humanic Society, the City Board of Charities, the Younan's Union, the Free Kindergarien, and other benevotent o indications, attentive deep interest that is ferr in philanthropic work.

and other beigeolegic of unizations, "affect the deep interest that is feet in philanthropic work.

But among them all there is no work, it seems to me, more Christ-like; none more vital to the wolfare of society, than that represented by the Boys' and Gris' Aid roccety. By so much as prevention is better than eure. by so much as it is better to purify the lountain than it is to try to sweeten the stream, by so much is it grander to keep men from bing lost than it is to save them after they are lost.

The normal development of a child should be after they are lost.

The normal development of a child should be considered in the normal development of a child should be either than the mortal to be not been so the consideration of the constantly and normally sound, educated to temperature considerations, so there to development is sediom seen. I do not know a divisionment before me can become actual of God. We too often lorget that in the paradic and the hundredth sound not have been children about grow mp. (**samuel and Timother grew in the knight).

should grow up, a samuel and Timothy grea in the kinglom.

Such a development the welfare of suclet; imperatively demaids. The boys and garls who are now walking the streets will control the nation twent-theory learning the treets will control the nation twent-theory learning theory. The work which we are now seeking to do for humanity and for food wo must be long that over to them. It is, therefore, of the nimost hyportance that they should be long and high tolder, condensing meaning to make them to have the more made women and no labor can be more thoroughly persons and it maintains than that when seeks to make them as Conversely no neglect can be more a sample of the control of the children. To leak the toung plants americally a little with the conversely no neglect to the at the very root, our hope of the function of a more allowed to the control of the children and the control of the control of the children and the children whose lands that future must be controlly come. Sow, is I undoer and it, the lows and outs Anderson of the children of the children whose lands that future must be controlled and the children of the children whose lands the children of the children whose the children of the children whose the children of the children whose the children of the children of the children whose the children of the chi

RESPONSIVE TO KINGNESS.

BROWESV.LLE MOTES.

Hownsville, Or., May 6.
Lovely weather and gardons and grain growing finely. Mrs. Mattie Jack is quite ill and is under the care of Dr. Reese.

The reneirs for the Brownseille Eagle Woolen Mills have arrived here. And the work of putting the mills in first-class running order is progressing.

Strawberrles are getting quite plentiful here, and charants and good-eberdes are coming info market. The outlook for fruit is good and all crops are tery premising.

Services were held at the Cumberland Presbyterian church for the past three evenings by Revs. Kirkpattels and Moody, and the sacrament of the Lord's supper was administered last night.

Last Friday night a "corn' seefal" took place at the city hall, under the suppless of the Baptlat church. It was a decided success, and a handsome sum was realized to fix up the church in this place.

The committee th whom was assigned the work

Reports from the mines are very flattering, and parties here are preparing to soon depart for the scene of operations. A California expect has bonded several of the claims, one for \$30,000, and work is to be commenced in real earnest shortly. The complaint against the lateness of the artical of our Portland mail is not only getting loud, but deep, and it is to be hoped there will soon be a change in the time or management, so that the mail can come from Portland to this city (about 100 miles) in one day.

The Racers from Senator Stanford's Cali-fernia Farm Bring Good Prices. Arola Farm Bring Good Prices.

New York, May S.—The sale of trotting stock from Senator Stanford's farm began to-day. The attendance was good, and the prices very satisfactory. Among the earliest sales were the following, al. by Electioneer: Elector, stallion, 9 years, to Miller & Sibley, of Franklin, Pa. \$2900; Carisan, 2 years, to M. A. Dougherly, of New York, \$2050. Liela, 2 years, to Miller & Sibley, \$1000; Coin, 3 years, to M. J. Feek, of Syrucuse, N. Y., \$200; a 2-year-old filly to Robert Steel, of Philadelphia, \$1000; Alya, 5 years, to Robert Steel, \$1330; yearling colt, sire Electricity, to Upland Bros., Milwaukee, \$1360.

The Cheyennes and Pine Ridge Tribes of Montana Preparing for a Sun Dance.
FORT CUSTER, Mont., May 8.—Responsible parties just in from Lame Deer, Montana, report that a large party of Pine Ridge Indians, led by Grasshopper, have come into the Tongue River agency, for the purpose of getting up a sun dance among the Cheyennes. The Cheyennes are in sympathy with the Stoux, and the sun dance will certainly be held unless the Indians are overawed by the presence of a large body of troops. The Crow outbreak of last summer had it origin in a sun dance gotten up by Grasshopper, and held at the same place.

The Inter-Occanic Railro d Will Be Completed in Less Than a Year.

City or Max to, (via Galveston) May 8.—
Work on the Inter toceatic railroad is progressing rapidly. It will be finished to Vera Cruz and Matisac in less than a year. It controls the branch from Aguas Calientes to San' Luis Petosi, which will be mished this month.

The body of ex-President Lerds is expected Thursday. The remains will be intered with imposing ceremontés.

disturbed districts is being remiorized.

Large Mountain Fires.

Neugeng, N. Y., May 8.—Forest fires are reported in the Shawangunk mountains, in the Catskills, in the highlands below the city, on the Fishkill mountains, along the line of the New England railroad and on the state line. A large amount of woodlands has been seriously damaged. The fires are reported on the increase in all directions

A K-Broad Collision.
CHATTANOGA, May 8.—Information has just been received of a collision between a freight and passenger train on the Citciuniti Southern, near Glenmary, last night. Both traing were badly smashed. The passengers escaped unburt, but three train, men were badly injured, and one killed.

Gave Up the Contest.

New YORK, May 8.—On an order from the court, D. Lalber bmith this morning gave in the contest for the commissionership of public works, and turned the office over to his successor, T. F. Gilley.

A Purillet in Troubly.

Cons. May 8.—Jack Hickey, a pugilist, in a row with a jounting-car drive; struck him and broke his jaw. He also in lacted other injuries that caused his death. The murderer was arrested.

To Build a Monument.

New York, May 8 - Enrina Abbott will binid a monument to her late bushand, to cost \$86,000. When she dies her remains will be cremated and the ashes placed in the same tomb.

Bostos, May 8.—Krewolf, treasurer of Hoyt's "treas Monkey" Company, who skipped with \$5000 about a mouth ago, has been heard from in Washington territory.

Conflict Between Soldiers and Strikers.

Beens, May 8.—A conflict occurred between the strikers and the military at Essen
The soldiers fred upon the strikers, killing three and wounding five.

see to the welfare of the state removed, if their truth of Matthew Arnold's words could be more; generally realized:

"Born into life!—man grows
Forth from his parents' stem,
And blends their bloods as those
Of theirs are blent in him;
Second, the reclaiming of children who have either no homes or homes that are worse than none. It is sadly true that amony parents will not listen to the voice of reason any in Good, and so it has some to pass that through their violation of his come to pass that through their violation of his come to pass that through their violation of his come to pass that through their violation of his come to presson any of Good, and so it his come to pass that through their violation of his come to presson any of Good, and so it his come to pass that through their violation of according to conduct of the Pennsyllation, and growing up, the gript for the hearth, the hops for the renticularly. These cliffleren we will not fractenize with the mob, and a detachment of regular, was not sent for because the millim refused to fire on the mob. There were over it ourselves, to those who are to come after its, to humanity and to Gool, to save if possible.

In a, ellbonal, 'The state Military Arm 'appearing in Tuesday's paper you have fallen into an according the conduct of the Pennsyllation of regular was not sent to because the millim refused to fire on the mob, fliver were over it ourselves, to those who are to come after its, to humanity and to Gool, to save if possible.

And to save them is possible as a rule, they are quickly

RESPONSIVE TO KINGNESS. The People, Not the Milita. Favored the May?

Populano, May 8.

To the Edition of the Original May 8.

To the Edition of the Conductivation of the Pennsyl. In an elitorial, the state Military arm appearing in Tuesday's paper you have failen into an error touching the conduct of the Pennsyl. vania manda during the roles of 1877. The militia dri not fracturize with the mob, and a detachment of regular, was not sent for because the militia refused to fire on the mob. There were thou, as now, two well-appointed regiments of national guard in Phisburg and vicinity—the Fourteenth, commanded by Colonel Gray, an approved soldier of three years' active service during the Robeltion. Its Lieutenant clonel Gleun and the majority of its line officers, and a large portion of the men in the role, had seen line service, and the Eighteenth, colonel teathrie.

The Eighteenth of old "Duresne Grays," is and always has been a "truck regiment," and was then officered and its ranks almost entirely filled by returned Union veterans. Added to these were Hampton's battery and Knapp's battery. The guius of thise I, atternes had made recorded history on many well-lought fields. Only a section of Knapp's was called out in the first instance. The Eighteenth was massed at the Union Stock yards an Inst Eiberty and usayly ted the duty of protecting these.

A battalion of the Fourteenth under Colonel Gleun, and a section from Knapp's battery were structed at ker Treenty eighth street crossing the ending of the Treenty eighth street crossing the end of hour 1.5 mon but the major through propagation and a section from Knapp's battery were structed at ker freeny eighth street crossing the end of hour 1.5 mon but the major through propagation of the Fourteenth of the propagation of the contracts. His proclamation was man tendered his services of citizens, and nor a man tendered his services of citizens, and not a man tendered his services of citizens, and not a man tendered his propagation that the entire company mand, company of the Fouriecuth—acc

instance of one company of the Fourieeuth—a company maint, composed of uniters and above ors.

It was argued by many good infinential citizens that it was a hideous wrong to the control of the control

Immigration Pouring Into Lewis County— Improvement Notes—Etc.

CHENALIS, May 7.—A little boy of Sam Sears had his flugers arcidentally cut off by a hoc in the hands of his brother.

Mes-rs. Weir and Brown will immediately errer a building on Market street for a first-class drug store. This will be the third drug house in Chehalis.

wery dull wash in the whest and flour trade here. Buyers and speculators in general seem to consider that the teason is too far advanced for any pinch in supplies high suppen now it has not been felt yet) to have any effect on orders. The general opinion seems to be that all now depends on the crop prospect, and the receipt this week of the Washington beream's report to the effect that the condition of the witter wheat crop was within six points of a full average, against it was the condition of the witter wheat crop was within six points of a full average, against it perfectly been on April 1 last year, was not of a perfect that if this condition of the witter wheat crop will be about \$0,000,000 hasheld greater wheat crop will be about \$0,000,000 hasheld greater than it was list year, and that if in August supplies in Europe run very low, the Atlande ports may be reckened on to supply sinest any quantify that may be desired, subject to freight room being available. The news from France, too, is not encouraging to holders. Foreign, wheat, of which there is still about 11,20,000 bashels in stock in the ports, continues to mee a very dragging sale, and there seems to be no signs of any increase in the demand for fore gn products. From the south of Russia the respects concerning the young white sown wheat plant are very uniformatic, it being considered to be prigically because it in a very deplorable size. Estimates to the stack at Odessa is in a very deplorable size. Estimates of the stack at Odessa are very vague and not always correct, the only official return being made on sanuary 1 to March 31 dessa has shipped about \$5,00,000 bushels, and the notes at the stock was 18,600,000 bushels; and that the rest in the that it is 12,000,000 bushels, while now we are told that it is 12,000,000 bushels, while now we are told that it is 10,000,000 bushels, so that it to not likely that lim stock now exceeds \$000,000 bushels, and the rest is suffit as the various countries on April 1 may therefore be set down as 500,000.

May keep out traines and burglars, but not Asthma, Brouchitis, Colds, Coughs, and Croup. The best protection sgainst these unwelcomes intruders is Ayer's Cherry Pectoral. With a bottle of this far-famed preparation at hand, Throat and Lung Troubles may be checked and

Thomas G. Edwards, M. D., Blanco. Thomas G. Edwards, M. D., Banco, Texas, certifies: "Of the unay preparations before the public for the cure of colds, conglis, brouchitis, and kindred diseases, there are none, within the range of my experience and observation, so reliable as Ayer's Cherry Pectonal." John Mayer, Flotence, W. Va., says: "I have used all your medicines, and keep them constantly in my house. I think Ayer's Cherry Pectoral saved my

life some years ago."

D. M. Bryant, M. D., Chicopee Falls,
Mass., writes: "Ayer's Cherry Pectoral
has proved remarkably good in croup,
ordinary colds, and whooping cough
and is invaluable as a family medicine." life some years ago.

Cleanse

the System

With that most reliable medicine—Paine's Celery Compound. It purifies the blood, curos Constitution, and regulates the liver and kidneys effectually cleaned. DO NOW kidneys, effectually cleans-ing the system of all waste

Paine's Celery Compound combines true nerve tonic and strengthening qualities, reviving the energies and spirits. "I have been troubled for some years with a complication of difficulties. After trying randous remedies, and not finding relief;" I tried Paties's Celery Compound. Before taking one rull bottle the long troublesome symptoms began to subside, and I can truly say now, that I cell like a new man. Digestion has improved, and I have gained ten pounds in weight since I have commenced taking the Compound."

our is quiet, and brokers' extras have been

orders this sesson, and that from the present indications the pack will fall 50 per cent. Abort of that of 1888.

Dried fruit continues quiet, the only feature of interest being the sale of 1600 boxes of French pruncy, three grades at 6 cents. A private letter from one of the heaviest New York fruit houses says that now California prunces have come down in price, they are driving the medium and lower grade. French prunes out of the Eastern markets, and are beginning to compete seriously with the duclesst French prunes.

Sugar is on the down grade again, the refinerieshaving reduced the prices ½ to ½ cent per, pound on Monday, Widespread attention is now being, directed to the cultivation of the sugar-best in this state, and several more refuneries in the interior are falked about.

Canned salmon is reported quiet. With the exception of small toth in the hands of jobbers, all good red Alaska fish have been sold and, abtipped out, leaving fall packed fish the suly stock against the canners has been sold, and therefore very few lots are offering.

It is reported that a new lumber trust, er combi-

ice. Government bonds have been dull and steady. MISCELLANBOUS.

peen mouse. The market is sick and the demand is auxil to schize; We quote 308305.

282824 FRGITS—Receipts for the past six.

2628 Latte been, 1819 lowes. The market is settre with good trading. Apples are surgeand about out of the market. Good ones brag from it 3021 50. We quote: Bananas, 33 50.

20 50 a bunch; oranges, Navels, 42 5084 75 per best Runnides, 1365 28, and Los Angeles, 32 25 leaves, 42 50 45 per leave Runnides.

Theselay witnessed a slump in sugars and the market is still weak and unsteady. The San Francisco Commercial Arus, in its regular weekly review, says:

The current of trade in goneral has been-so, slow, that it can hardly be said to have suffered any contraction, or naterial obstruction, through the observance of Tuesday as a national-heilday. In fact, from a purely mercenny standpoint, the one hundredth ampiversary of so important an event as the inauguration of the first president of the United States could not have fallen in a sear as the state of the same of t

the Brasil, Java and Cuban erope, the total supply in the latter part of April, according to Licht, being 971,000 tons, against 1,223,719 tons at the same time last year. Advices from the East under date of April 25 reported a busyant and hardenings market, with more busyers than sollers, although there had been large sales. Cables of the same date from London gave an excited market, with sellers holding off, and previous purchases at the highest point; yet bucked, the animatian being due in great, measure to free purchases at the highest point; yet bucked, the animatian being due in great, measure to free purchases by speculatora. As the matter presents itself, it is not easy to soe when the market is likely to rotate down upon a stearly basis, but one fact stands out prominently from all the mass of uncertain elements that go to make up the present conduction elements that go to make up the present conduction and the prominently from all the mass of one of production, and consumers will have done for such a sugar this season. The statistical position favors coffee bolders, stocks or hand being limited, while as anticipated, consignments exstead American ports, amounted to only \$225 sacks, or just about one-half the quantity received by the Granada. The market rules fina and moderately active upon the busic recently given. Mail reports from New York under date of April 25 capses general disappolutinent among the trade over the very restricted therater rules fina and moderately active upon the busic recently given have on the reductions of year hot filling and singer than the demand having been in no sense up to limits were made on the continuents to improve, pring and the man and singapore safed upper. Ching rice is said to only changes to note are re

FULLWEIGHT

Taking Testimony-Incorporated-Judge Tan-ner's Tribunal-Jacketta's Case-Ferry Bates-Post-Scott Lingston.

In the United States circuit court yesterday a focusiver to the bill in the case of S. Case vs. J. H. Lofens, was arrived and submitted. Plaintiff owns land in the town of Kerport, Yaguina bay, bordering on the bay. The government is building a transway in front of his land on the tide land, and Mr. Case objects and claims that he has right of access to the bay and right to build a wharf from his land out to feep water. He has therefore enjoined Mr. Lofens, the foreman on the government work, from building the transway in front of his ground. The state gave the city of Newport the right to regulate the tide lands in front of that city, but whether the government can be stopped from using a portion of these lands or not remains to be seen.

E. A Post yesterday appeared before ludge Cat in in the county court to show cause why he should not allow Mrs. Catherine who they will be should not allow Mrs. Catherine who they will be should not allow Mrs. Catherine who they will be should not allow Mrs. Catherine who are paid. He should not allow Mrs. Catherine who are paid. He also states that the after the state of the busic o
